SUMMARY

Frontend-focused Software Engineer with **5+ years of hands-on software development experience** building web applications with React, Angular, TypeScript and JavaScript. Experienced in enterprise frontend development, Angular-to-React migration, REST APIs, Redux, Jest, CI/CD and Azure DevOps. Recently developed independent React/Next.js applications with reusable components, state management, validation and responsive UX. Based in the Netherlands and targeting Medior Frontend Engineer, React Developer and frontend-focused Software Engineer roles.

TECHNICAL SKILLS

Frontend: React, Angular 14, TypeScript, JavaScript (ES6+), Next.js, Redux Toolkit, RxJS, Tailwind CSS, Angular Material, HTML5, CSS3
Backend & APIs: Node.js, REST APIs, MongoDB, MySQL
Tools & Practices: Git, GitHub, Vite, NPM, ESLint, Prettier, Jest, Jira, Azure DevOps, CI/CD, Scrum, Kanban

EXPERIENCE

Infosys Limited — Pune, India
Senior System Engineer (Medior Level) Nov 2022 – Sep 2024

- Developed React and Angular features for enterprise applications, improving client work-planning efficiency by 30%.
- Contributed to migration of a large enterprise application from Angular to React, improving scalability and maintainability.
- Implemented Jest unit tests, increasing test coverage to 85% and reducing production bugs by 25%.
- Managed complex UI state using Redux and collaborated with Agile Scrum teams using Git and Azure DevOps CI/CD.

SpryIQ Technologies Pvt. Ltd — Pune, India
Associate Software Engineer Mar 2021 – Oct 2022

- Converted Figma designs into responsive Angular components and revamped legacy UIs, improving load time and usability by 20%.
- Integrated REST APIs and resolved critical Angular/Node.js application issues to improve system stability.
- Delivered features within Agile workflows using Jira and CI/CD practices.

Addvic Technology Pvt. Ltd — Pune, India
Freelancer Jun 2020 – Mar 2021

- Developed responsive Angular applications using Angular Material and integrated REST APIs.
- Deployed applications through cPanel and maintained hosting stability.

INDEPENDENT SOFTWARE ENGINEERING PROJECTS | THE NETHERLANDS

Gojiswa Graha Udyog — Full-Stack Ordering Platform July 2025 – Present
Next.js, React, TypeScript, Tailwind CSS, Redux Toolkit, REST APIs, MongoDB, Jest

- Developed a mobile-first ordering platform for a small food business with a 120+ product catalogue, search, cart, checkout and order-management workflows.
- Built reusable React components, client-side state management with Redux Toolkit, and form validation for customer ordering flows.
- Structured the application for maintainability, responsive UX, API integration and automated testing.

Relocation & Professional Development Oct 2024 – Present

- Relocated to the Netherlands and continued developing technical skills through independent software engineering projects, including a personal portfolio and Next.js learning.
- Designed and developed a responsive portfolio with reusable components, routing, animations and project showcase; deployed on Vercel.
- Continued learning Dutch alongside technical development and professional job searching.

EDUCATION

Sipna College of Engineering and Technology — Amravati, India
B.E. in Computer Science and Engineering Aug 2011 – May 2017
